

## Product Data Sheet

# 13-1/2" RMB S668

### Steel Bit Body Material:

- Extended blade height for softer formations.
- Carbide hardfacing for abrasion and erosion resistance.
- Excellent strength and ductility.
- Reduced vibration and shock.
- Increased PDC cutter life.

### Parabolic Profile:

- Increased stability due to internal cone and multiple radii outer shoulder.
- Maximum cutter distribution is achieved across nose and shoulder of profile.

### Asymmetric Force Balance Design:

- Cutter layout is force balanced to drill a precise round hole and reduce bit whirl.
- Cutter blades are asymmetric (not evenly spaced) due to force balance.
